

Thunder Said Energy - Pricing Sheet, 2020

Thunder Said Energy is a leading research consultancy, identifying economic opportunities that can drive the energy transition. Our clients include some of the world's largest asset managers, private equity firms, and energy companies.

This short document explains how we work with our clients. Please [contact us](#) if you are interested in exploring one of the options below.

Email Newsletter – Free

- Highlights of our ongoing research are sent out daily to our [distribution list](#)

Full Subscription to our Research, Data & Models – \$13,175 per year

- Our full [subscription](#) covers all the research, data, and models on our [website](#)
- This includes over 300 PDFs and Excels, plus the next twelve months' output
- The subscription can be shared by unlimited users from your organization
- Where possible, we will also answer short questions about our work by email, and guide future research into areas that are interesting to you and your team

Written Insights Subscription – \$4,750 per year

- Our written insights [subscription](#) covers all the PDF research on our [website](#)
- This includes over 50 prior reports, plus the next twelve months' output
- The subscription can be shared by unlimited users from your organization
- Where possible, we will also answer short questions about our work by email, and guide future research into areas that are interesting to you and your team

Consulting Credits – \$950 per hour

- We can also present our ideas, discuss the sector, or undertake bespoke analysis
- Each consulting credit is equivalent to one hour of discussion or analysis
- Consulting credits are fulfilled by our CEO and lead analyst, Rob West CFA
- Many of our clients purchase a bundle (e.g., 6-credits) for use through the year

Consulting Engagements – upon request

- We are available for speaking engagements and detailed consulting work
- Please contact us to explore if we can help you with a specific proposal
