

Thunder Said Energy - Pricing Sheet, 2024

Thunder Said Energy is a leading research consultancy, identifying economic opportunities that can drive the energy transition. Our clients include many of the world's largest asset managers, private equity firms, and corporations.

This short document explains how we work with our clients. Each year, our pricing is 100% identical across all of our clients, to ensure fairness. Please [contact us](#) any time if you are interested in exploring one of the options below.

Email Newsletter – Free

- Highlights of our ongoing research are sent out daily to our [distribution list](#)

Written Insights Subscription – \$5,995 per year

- Our written insights [subscription](#) covers all the PDF research on our [website](#)
- This includes 300 prior reports, plus the next twelve months' output
- The subscription can be shared by unlimited users from your organization
- Where possible, we will also answer short questions about our work by email, and guide future research into areas that are interesting to you and your team

Full Subscription to our Research, Data & Models – \$15,995 per year

- Our full [subscription](#) covers all the research, data, and models on our [website](#)
- This includes over 1,000 PDFs and Excels, plus the next twelve months' output
- The subscription can be shared by unlimited users from your organization
- Where possible, we will also answer questions about our work by email, and guide future research into areas that are interesting to you and your team

Consulting Credits – staggered scale, starting at \$2,000 per hour

- We can also present our ideas or discuss the energy transition with your team
- Each consulting credit is equivalent to one hour of discussion or analysis
- Consulting credits can also be used to prioritize additional requests and emails
- Many of our clients purchase a bundle (e.g., 4-credits) for use through the year
